

MARK ANGELO A. ISULAT

Software Engineer / Full-Stack Web Developer

Antipolo City, Philippines | 0948-679-3481 | markyisulat@gmail.com | markyisulat.vercel.app | github.com/markPie29

PROFESSIONAL SUMMARY

4th-year Computer Engineering student (DOST-SEI Merit Scholar) and full-stack developer with hands-on experience building enterprise logistics systems, SaaS applications, and AI-integrated tools. Proficient across React, Next.js, TypeScript, Node.js/Express, Laravel, and Supabase/PostgreSQL, with a strong focus on scalable architecture, row-level security, and clean multi-tenant system design. Completed a software development internship at Nexvision Innovations delivering two production-grade logistics platforms. Also brings a working design/UI-UX sensibility from parallel creative work, giving a sharper eye for interface quality than most engineers.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Shadcn/UI, Framer Motion/Motion, GSAP, Vite

Backend: Node.js, Express.js, PHP, Laravel, RESTful APIs, Serverless Functions (Vercel/Netlify)

Databases & Cloud: Supabase (PostgreSQL, RLS, Storage), Firebase, MySQL, SQL Server, Vercel, Netlify, Docker

Languages: TypeScript, JavaScript, PHP, Python, Java, C#, Visual Basic

Other: Unity & Vuforia (AR/XR), Git/GitHub, Zustand, TanStack Query, AI-assisted dev workflows (Antigravity CLI, Gemini CLI)

PROFESSIONAL EXPERIENCE

Full Stack Web Developer (Intern) — Nexvision Innovations

2026 | React, Next.js, Express.js, Supabase, Tailwind CSS

- Engineered and developed an enterprise-level Logistics Software System (SK Logistics Fleet Management System) covering fleet tracking, dispatch, and company management operations.
- Architected system structure for scalability, security, and database maintainability, implementing Row-Level Security (RLS) policies across multi-tenant data.
- Delivered full-stack features and proactively debugged edge cases to maintain high system stability and uptime.
- Mentored and led a team of developer interns, establishing Git workflows, code review practices, and codebase standards.
- Produced full project turnover/handover documentation for both delivered systems (Nexlogistics Demo Portal and SK Logistics FMS).

Freelance Web Developer — Independent / Client Work

2024 – Present | React, Tailwind CSS, Supabase, Laravel

- Built and shipped client-facing web applications translating business requirements into functioning, user-centered products.
- Managed end-to-end project scope, technical implementation, and delivery timelines independently.

Multimedia Designer & Developer Trainee — AP Global IT Solutions Inc.

2023 | React, UI adjustments

- Assisted engineering teams with frontend web development tasks and React component work alongside creative production duties.

SELECTED PROJECTS

SK Logistics Fleet Management System

React, Next.js, Express.js, Supabase, Tailwind CSS

- Enterprise-level fleet tracking and logistics dispatch system built during Nexvision internship; handled multi-role access, Garage Coordinator portal, and Employee Self-Service Portal.

Personal Portfolio / CRM & Admin Dashboard

React, Vite, TypeScript, Supabase, Node.js, Vercel

- Full-stack personal portfolio integrated with a custom CRM to manage client inquiries, project showcases, calendar bookings, and real-time Discord webhook notifications.

URSAC Hub Marketplace

Laravel, PHP, MySQL, JavaScript, Docker

- Centralized university platform combining organization announcements/events with a role-based campus marketplace and product management system.

AR-DUINO

Unity, Vuforia, AR/XR

- Augmented reality mobile application simulating Arduino hardware projects and visualizing electronic components in 3D AR space.

Kado Kohi

React, Next.js, Supabase, Tailwind CSS, Figma

- Developed landing page features and booking flow for a coffee cart cafe operating across two locations (Marikina & Greenhills).

URSAC Hub Social

Firebase, Tailwind CSS, Laravel

- Campus-exclusive social media platform enabling students to connect, post updates, and engage with student organizations.

EDUCATION

BS in Computer Engineering

University of Rizal System — Antipolo Campus | 2023 – Present | DOST-SEI Undergraduate Merit Scholar

CERTIFICATIONS & ACHIEVEMENTS

- DOST-SEI Undergraduate Merit Scholar (Department of Science and Technology)
- TESDA Online Program — Microsoft Digital Literacy Completer
- Free Code Camp - Legacy Responsive Web Design V8
- AP Global IT Solution Inc. – Completed Internship
- Nexvision Innovations Inc. – Completed Internship
- Consistent Honor Student (Junior High School & Senior High School)
